62 Sideboard, 3 drawer

Designed by Greta M. Grossman - 1952

ITEM NUMBER 10141

DESCRIPTION

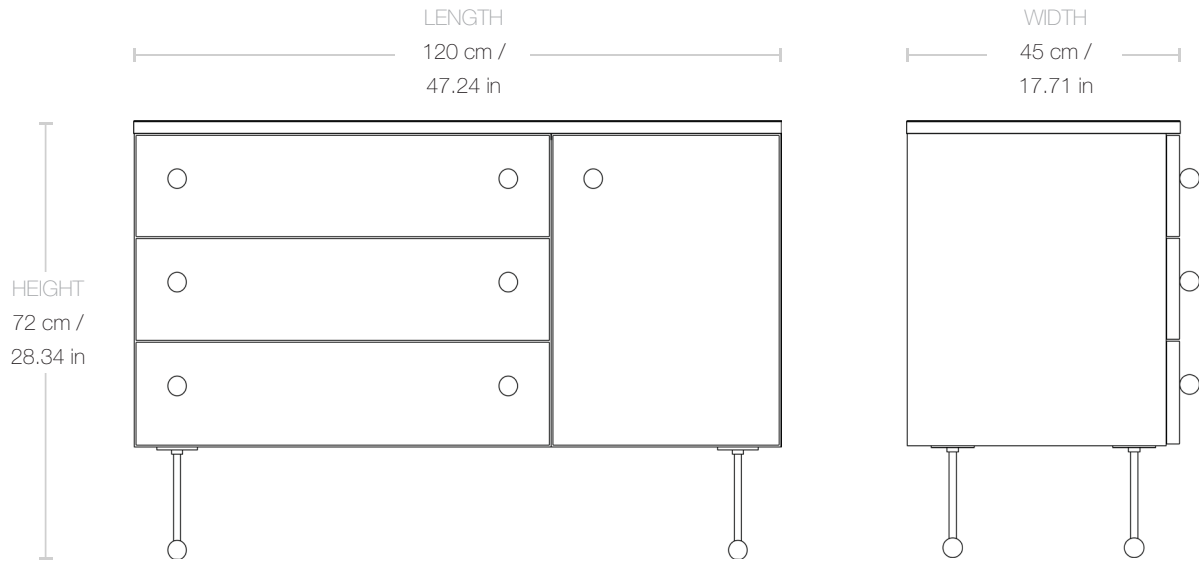

Designed in 1952 by Greta M. Grossman, but named the 62 Sideboard as it was deemed to be ten years ahead of its time. The sideboard illustrates the designer's penchant for exceptional shapes and unusual pairing of materials. The slender metal legs with ball-shaped feet, a characteristic trait of Grossman, contrasts the sharp rectangular shape in luxurious American walnut, giving the furniture a characteristic appearance of lightness and almost seeming to defy gravity. Adding to its elegance, the sideboard is provided with a deep, black full gloss finish on the tabletop and small solid wooden spheres.
