FRITZ HANSEN

PK4™

Product Fact Sheet

PK4™

Designed in 1952, the striking PK4™ is a modern, relaxed lounge chair that consists of two materials - one unbroken halyard length and seven steel tubing pieces welded into a unified frame. Radiating Poul Kjærholm's distinctive elegance through a light, minimalistic expression in steel and flag halyard, it perfectly exemplifies Kjærholm's visionary approach where art and design intersect.

Poul Kjærholm, 1952

ABOUT THE DESIGNER
Poul Kjærholm was a trained cabinet maker and continued his studies at the Danish School of Arts and Crafts in Copenhagen. He had a particular interest in different construction materials, especially steel, which he considered a natural material with the same artistic fineness as other natural materials.

Poul Kjærholm was first employed at Fritz Hansen for about a year, where he designed a number of noteworthy chair prototypes. In 1955, Poul Kjærholm initiated his collaboration with manufacturer Ejvind Kold Christensen, which lasted until Kjærholm's death in 1980. In 1982, Fritz Hansen took over the manufacture and sales of "The Kjærholm Collection", which was developed over the period 1951 to 1967.
