Salon Tray

- Classic materials and modern design fuse together to create a sense of edgy elegance. Use the Salon Trays for storage and decoration.

- The Salon Trays bring French wicker into a new context, allowing the material's strength and neat appearance to shine forth in a simple design. Use the trays to carry drinks and snacks from the kitchen to the living room, dining room or garden, or for storage and decoration.

- In the Salon Tray, the airy wicker is edged with a prominent rim in painted veneer. The rim's clean surface is broken by two symmetrical notches, which can be used to get a steady grip on the tray, while also adding form to the design. Classic materials and modern design fuse together to create a sense of edgy elegance.
