

Doubling on comfort

NEW BACK-TO-BACK WONDER SOFA BY SPACE COPENHAGEN

GUBI is introducing the new Back-to-Back Wonder Sofa by Space Copenhagen. The Wonder Collection was introduced in 2019 and is an update on the informal, generous and playful nature of the 1970s modular sofa concept, with an elegant and simple frame. The Wonder Sofa brings the relaxed and approachable feel of home to a hotel or lobby, or a touch of sophistication to a private residence.

The back-to-back edition offers yet another combination to the Wonder Collection's numerous possibilities in response to today's dynamic interior spaces. The highly functional Wonder Sofa concept reflects the increasing popularity of modular furniture and its endless combinations enable it to adapt to users' changing needs. Its carefully considered design offers the flexibility to create 360° approachable landscapes. As a freestanding piece, in groups, side-to-back, in rows or in this new back-to-back formulation, the Wonder Sofa's distinctive design enchants from every angle.

The new edition is created by positioning two Wonder Sofas back-to-back with a specially designed cushion draped over the frame, the shape and tension of which preserves the clean lines of the silhouette and maintains its elegant expression. The uniquely constructed cushion serves an ergonomic purpose while maintaining the clarity of form in a way that traditional loose cushions rarely achieve, making the sofa ideal for living spaces in both public settings as well as private homes.

The kinship between Space Copenhagen and GUBI is defined by a shared design philosophy that combines a signature of elegant simplicity with a cosmopolitan international outlook. Prioritizing functionality and personality in design while focusing on a few effective details has resulted in a self-assured design universe that emphasizes a sense of spaciousness. While the Wonder Sofa Collection already offers myriad combinations, the addition of the back-to-back edition takes this dynamism to the next level, making it perfect for dynamic interior spaces.

Product Information

IN STORES:

November 2020
